PROFILE SUMMARY

Web enthusiast and coding aficionado! I craft awesome web experiences and bring ideas to life through software magic. Solving real world problems using a computer language? possibly one of the coolest things i've ever done. I made a hard right turn late in my career to do something i've always wanted to do, and its been the best decision of my life. I am extremely driven, excited and impassioned about this new journey.

PROFESSIONAL SKILL

- **Full-Stack Development:** Proficient in building web applications from concept to deployment using modern technologies.
- **Problem Solving:** Adept at solving complex real-world problems through software solutions.
- **Adaptability:** Quick learner with the ability to adapt to new technologies and frameworks.

TECHNICAL SKILL

- **Front-End:** React.js, JavaScript, Redux/Saga, jQuery, C#
- **Back-End:** Node.js, Express.js
- **Database:** MongoDB, PostgreSQL
- **Version Control:** Git, GitHub
- **UI Framework:** Material-UI
